V. New Complaints:

- A. **CRB2021-0194:** Filed 11/23/2021 for Excessive Force. The complaint alleges that on 2/27/2021 the Complainant was arrested in Baltimore County and taken to the hospital for injuries. At the hospital, two BPD officers were present. The Complainant alleges that the BPD officers encouraged hospital staff to draw his blood and medicate him against his will. The BPD officers gave false information to the hospital regarding where his injuries came from, which impacted the medications he was given.
- B. **CRB2022-0001:** Filed 1/10/2022 for Harassment. The complaint alleges that the BPD is responsible for surveillance devices in his home and on his phone and tablet.
- C. **CRB2022-0002:** Filed 12/30/2021 against an identified BPD officer. On or about 12/8/2021, the Complainant was arrested by the BPD, during which he was injured. During the arrest, his personal property was confiscated. The Complainant attempted to obtain information about his criminal case from the subject officer, but the officer did not give him accurate information and does not return the Complainant's phone calls. The Complainant believes his criminal case is over, but the subject officer is not providing information to him. The Complainant would like his personal property returned.

alleges that on 11/4/2019 he was talking on the phone while walking to the store when he was approached by two individuals who were speaking aggressively to him. The Victim began to run away; he was not aware that the two individuals were police officers. While running, the Victim was struck by a police car, handcuffed, and taken to the hospital for an injury to his eye. The Victim alleges that excessive force was used in the arrest. BWC footage was provided by the PIB.

- C. **CRB2021-012:** Complaint filed 7/20/2021 alleging that a woman caused a car accident with her son (hereinafter the “Victim”) who was driving a moped. The officers who responded to the scene of the accident did not believe what the Victim said about the accident. The woman had already threatened the Victim and he was scared. The Complainant told the officers that the Victim had medical issues that impacted the way he was reacting to the situation, but the officers didn’t care. When the officers arrested them, they handled him roughly twisting his arm, and then made fun of him. The Victim had a cut that was untreated by the officers and wasn’t treated until the juvenile detention facility ordered that the Victim be taken to the hospital.
