

AGENDA
Baltimore City Civilian Review Board
REGULAR MEETING
March 15, 2023
Place: Enabled by Zoom
6:00-8:00 pm

I. Welcome & call to order

II. Review and approval of agenda

III. Review and approval of minutes

- January 2023
- February 2023

IV. Director's Report

V. New Complaints:

- A. **CRB2023-0016:** Filed 2/8/2023 against an identified BPD officer for harassment, stalking, and threats.

VI. Completed Cases:

- A. **CRB2022-0138:** Filed on August 16, 2022, against identified BPD officers for False Imprisonment. The complainant alleges that that on July 30, 2022 at approximately 12:30am, the Complainant heard gunshots and drove towards the sound to look for her daughter. When she arrived at the scene, the Complainant stated that she and her friend placed their hands on the gunshot victim to help him. Shortly afterwards, the Complainant stated that BPD arrived and began to provide aid to the victim; however, bystanders started to become unsettled because the ambulance was taking a long time to arrive. When the subject officer arrived at the scene, the Complainant stated that the ambulance also arrived and transported the gunshot victim to the hospital where he was later pronounced dead. At the scene, the Complainant's daughter started to walk towards the Complainant's vehicle, and the Complainant heard the subject officer telling the officers to stop her daughter so she can be questioned about the shooting. The Complainant tried to block her daughter from the officers, but several officers rushed over to her and grabbed her. She demanded the officer to remove their hands from her daughter. During this interaction, neither the Complainant nor her daughter were handcuffed or arrested. The Complainant alleged false imprisonment because she believed the subject officer tried to hold her daughter at the scene against her will when her daughter wasn't a suspect.
- B. **CRB2022-0146:** Filed on September 1, 2022 against identified BPD officers for False Imprisonment. The Complainant alleges that on August 14, 2022, he was detained aggressively and unlawfully for possession of a legal firearm. The Complainant stated that the incident happened inside of Frank's Pizza at 6200 Belair Road. The Complainant stated that he walked into the pizza shop with good friend. While the Complainant and his friend waited for their food, the Complainant stated that seven police officers who were in the pizza shop observed his firearm and asked for his ID. The Complainant said that he complied with the officers and they stated that laws recommend that you don't carry the firearm where people can see it. The Complainant believed that the firearm was concealed on his hip. When the Complainant glanced down at his hip to see if the firearm was

showing, he stated that a female officer thought that he was reaching for the gun. The Complainant stated that the officers immediately slapped handcuffs on him before giving him a chance to show his ID and permit to carry. The Complainant alleged false imprisonment because the officers handcuffed him when he wasn't a threat and had a permit to carry. The Complainant stated that after several minutes in handcuffs, the officers verified his permit to carry. The Complainant said that he felt like his rights were violated because he was not reaching for his concealed firearm and the officers did not give him a chance to verify his identity. After his credentials were verified the Complainant stated that he was released without an apology or an explanation as to why he was detained. The Complainant stated that he was told that he was detained due to the "gun violence in Baltimore City."

- C. **CRB2022-0072/PIB2022-1003:** Complaint for Harassment alleges that on 3/10/21 officers raided the Complainant's home, during which they did not find anything illegal and confiscated a large sum of money that they did not report. On 10/8/2021, officers again raided his apartment, did not find anything illegal and again confiscated a large amount of money, which they did not report on the inventory list. The Complainant was also charged with attempted murder, even though the evidence did not support the charges and the victim reported that it was someone else. The Complainant is currently charged with a shooting, but there is no evidence to support the charge.
